#6 白い鳩／over the rainbow

Unforgivable... Charles Darwin
How dare you take my fingers away ...
To a magician, they are far more precious than life itself...
And for ruining my dreams ... I'll never forgive you!!

Kuku... What a shame, but that is how the rules work
The weak are eliminated as the strong remains, for it's survival of the fittest after all
It goes exactly according to my [Evolutionary Theory]
Don't just write me off as a weakling !!
From now on, Fancy Micchi's metal magic is just getting started!!

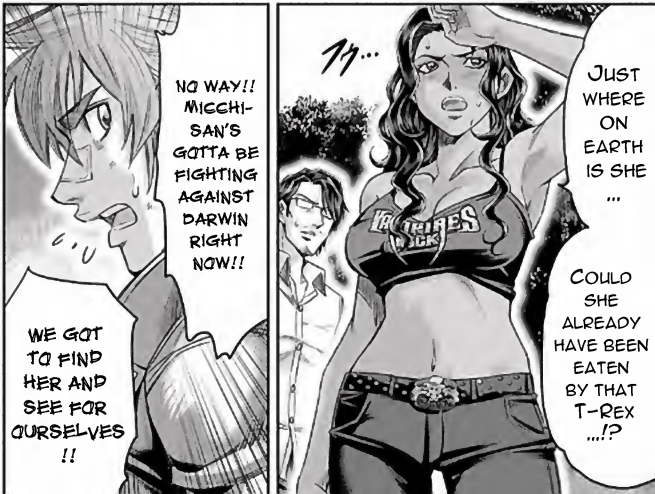
TAKE THIS, IRON HEDGEHOG !!
HAH! I'VE SEEN ENOUGH OF YOUR TRICKS
NOW GO, PAPILIONDAE CERAMICA!!
CHOP HER APART WITH YOUR ULTRA TOUGH CERAMIC WINGS!!

UGH !!
DAMMIT... I CAN'T HIT THEM AT ALL!!
KYAAAH...!!

AGH
...!?

ドン!!
ドン!!
... Michiru ...
Micchi-san...!!
ピク
ピク...
That's payback for Isaac...
Now that you're a quadriplegic ... You have until one minute left to live

ANSWER US, MICCHI-SAAN!!
MICCHI-SAN!! WHERE ARE YOU !?
HEY!! MICHI-RUUUUU !!

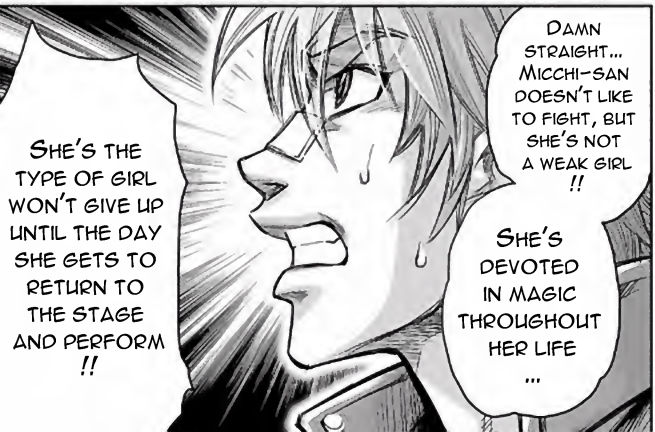


NO WAY!! MICCHI-SAN'S GOTTA BE FIGHTING AGAINST DARWIN RIGHT NOW!!
WE GOT TO FIND HER AND SEE FOR OURSELVES !!
JUST WHERE ON EARTH IS SHE ...
COULD SHE ALREADY HAVE BEEN EATEN BY THAT T-REX ...!?

However, I doubt that she holds that amount of conviction as an ordinary girl
If we are talking about Carbonoids here, they are prepared to put their lives on the line to achieve victory if necessary ...
Who knows if the battle was already over?
Ye!!

TS's com: Koharu is too savage!

And yet, wasn't it also him that took down Newton through a crazy fight to the death!?
Koharu-chan... I'm not a NEET, I'm a FREETER
If you put it that way, didn't Rinji-senpai used to be a shitty NEET !?



She's the type of girl won't give up until the day she gets to return to the stage and perform !!
She's devoted in magic throughout her life ...
Damn straight... Micchi-san doesn't like to fight, but she's not a weak girl !!

Come back alive, Micchi-san!!
Your magic makes the impossible possible ……

What the …!!?

But... How!? Those crimson limbs ...!?
Tissue regen-eration !?
No, that is not her ability !!

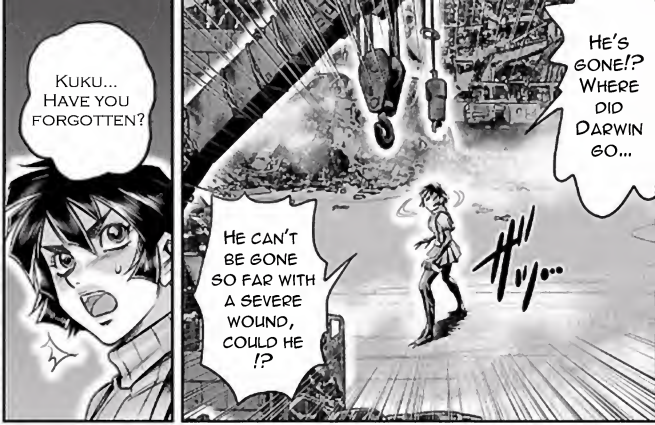
Fufu... Are you surprised?
Here is my metal magic illusion:
[Blood Steel Finger]!!
Blood... Of course!! She did so by drawing out the metallic elements such an zinc and copper and merging the iron from haemoglobins!!
You can control the blood to replace the lost flesh!!?

GAH !!!
HAVE YOU UNDERESTIMATED A MAGICIAN'S IMAGINATION !?
YOU ARE FINISHED... THE NEXT STRIKE WILL TAKE YOU DOWN WITH YOUR HEAD!!

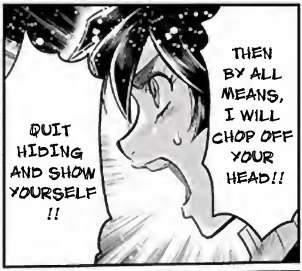
Kuh ...
Not so fast!! They're merely metal ...
Slice and dice her apart, Papilionidae Ceramica !!

There's a few refrigerant gas cylinders ...

パラ
パラ…
パラ
Hmph... Even if they can cut metal, they're still just bugs!!
It is easy to exterminate them once they're all frozen
ヒュ
ヒュ
ヒュ
ヒュ
はっ!!



KUKU... HAVE YOU FORGOTTEN?
HE CAN'T BE GONE SO FAR WITH A SEVERE WOUND, COULD HE !?
HE'S GONE!? WHERE DID DARWIN GO...



QUIT HIDING AND SHOW YOURSELF !!
THEN BY ALL MEANS, I WILL CHOP OFF YOUR HEAD!!

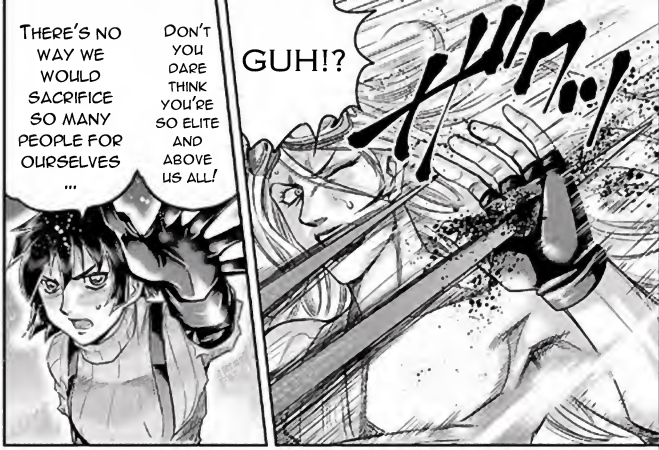
... BEFORE THAT, I WOULD LIKE TO ASK YOU A QUESTION

OUR BODY'S TOUGHNESS IS QUITE DIFFERENT FROM A NATURAL HUMAN'S BODY
WE ARE CARBONOIDS, REDESIGNED AS MATE'S ARTIFICIAL LIFE FORMS
ON TOP OF HEALING FASTER, WE DON'T DIE EASILY UNLESS YOU CUT OFF OUR HEADS ...

But what surprised me is that not even MATE knew about his existence, so his intervention was beyond expectation
I'm well aware that all of you were heading to the North after you reached contact with him
Who is he? And what are his goals?
Who is this [ATLAS] chap?
!!
Alright then... What if I were to tell you I can restore your limbs back to normal?
How should I know! Even if I did know, why would I tell the enemy about him!?
If you win, not only are you free to go back to your friends... I'll even forget about reporting anything about [ATLAS]
With my power to manipulate genomes, I can easily regenerate your four limbs through stem cells

But honestly, how can your audience enjoy your magic performance with those monstrous arms distracting them?
Well it's only matter of time before you return to the stage, don't you wish to become a magician again?
Wait... Are you saying you want me to become a spy!?
I was thinking how it would be such a waste to kill you off as the enemy
Listen here, Kimon Michiru
In order to win a survival contest, all of you were able to achieve evolution, and that's what makes you excellent in strength and beauty ...
Not only were you able to push beyond the maximum limit of your ability applications, you can even adapt your damaged flesh as a weapon...
UGH ...

TS's com: I thought you did your research, Darwin, but Koharu can't die (yet?)
Evolution will truly begin only when the superior life forms remain
And by natural selection, there won't be much value left in nearly all of the surviving mankind
Eventually, every one of your friends will die
Won't you take your place on the new stage of humanity? All you need to do is take my hand...
And then we shall evolve together !!



There's no way we would sacrifice so many people for ourselves ...
Don't you dare think you're so elite and above us all!
GUH!?

For the sake of entertaining many people, that's why I became a magician !!
Even though my worth is only to use magic tricks to fulfill their dreams ...
Just what makes you think you can just take those people's dreams away from them !!?

You Natural Borns are motivated by emotions over logic
What a shame, really...
I see... Then forget about it
パァァァ
Eh...!?

MUSH-
ROOMS
...!?
WAIT...
WHAT ARE
THEY
SUPPOSED
TO BE!?
IASTRAEUS
AQUA

IT'S A

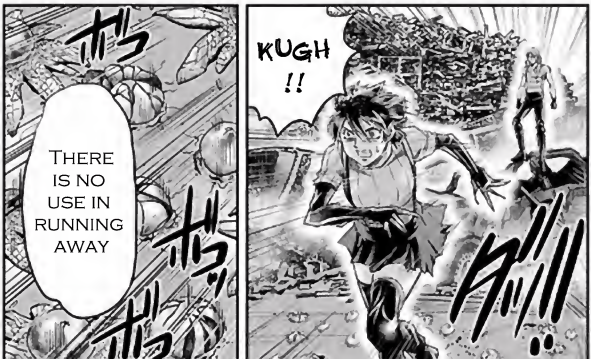
WHAT THE HELL...!? WHAT'S THAT BURNING SMELL !?
UGH !!?
EH!!?
...
AGH !!??

Nitric and hydrochloric acids together can melt down metal, how befitting for such a strong poison to be called [AQUA REGIA] !!
Whether it be iron or bronze ... Even a golden crown
When I add nitric acid and hydrochloric acid together through their genetic code, they have evolved to spread out highly corrosive spores !!
Kuku... This is a secret weapon made for you !!
My fingers... they're melting ...!!
ブル
ブル



There is no use in running away
ボラ
ボラッ
ボラ
KUGH !!
ダ!!!!

Naturally, not even a human body can resist against it !!
History's strongest toxic mushroom is born through evolution

IT'S HOT... MY SKIN FEELS LIKE IT'S BURNING!!

NOT EVEN YOUR ABILITY CAN FIND A WAY TO DEFEND THE TINIEST OF YOUR CELLS... FAREWELL, MICHIRU
WITH THE FLESH CORRODING FROM THE ACID, EVEN BONES WILL MELT...

SO PAINFUL...
THIS TIME ... I'M DONE FOR...

THE MUSHROOMS WILL FIND ME NO MATTER WHERE I ESCAPE
THIS IS THE END FOR ME ...
FINE BY ME ... I ALREADY GAVE IT ALL I GOT...
I'M SORRY, RINJI-KUN ...
WHAT'S THAT NOISE?
EITHER WAY, I CAN'T EVER GO ON THE STAGE LIKE THIS ...
PLEASE FORGIVE ME, EVERYONE ...
I HEAR SOMETHING ...

Dr. Hell ...!? And that's ...
Eurus and Notus!!
What are you guys doing here...
Are you mad at me...?

I GET IT... YOU'RE MAD AT ME AFTER ALL...
I'M NO DIFFERENT FROM DARWIN AND THE REST...
IN ORDER TO FULFILL MY DREAMS, I HAD TO TAKE AWAY YOUR LIVES AND DREAMS IN TURN...
I CAN'T JUST GIVE UP LIKE THIS ...
I GOT TO MAKE SOME EFFORT RIGHT TO THE END...
I GOT TO FIGHT BACK ...
WITH MY MAGIC....!!

Blast... What was that firework!?
I can smell the burnt mush-rooms ...
What could have caused the explo-sion!?
That's right ... It's through imagination
Ugh ...!?

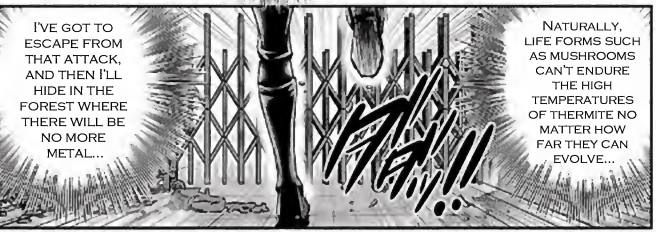
[THERMITE FIRE] !!
HERE IS MY FINAL MAGIC, DARWIN !!

GUAGH !!?
How could this be!? She's like a human firework !!
Is this also the ability of a metal bender !?
Wait a tic! Did she say thermite fire!?

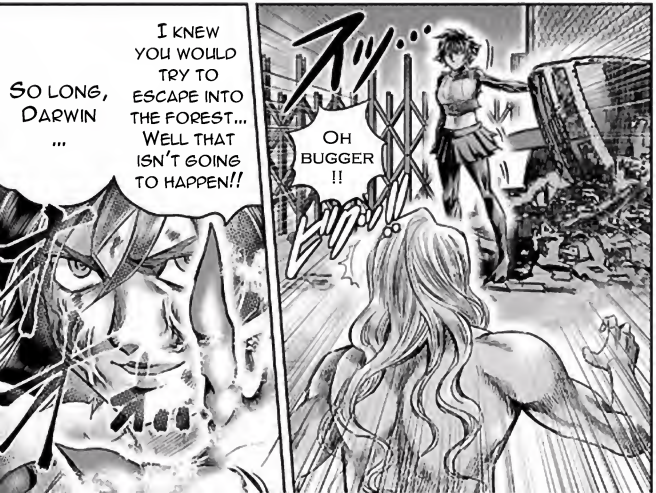
I SEE... SO IT'S THERMITE REACTION !?
BY USING METALLIC POWDER SUCH AS ALUMINUM AND COPPER OXIDE INTO THE MIXTURE, THEY CAN CAUSE A HIGH TEMPERATURE REACTION!!
THE TEMPERATURE CAN GO UP TO 2500 °C... IT'S THE SAME PRINCIPLE BEHIND THE INCENDIARY BOMB!!
THERE ARE HEAPS OF RAW MATERIALS FROM ALUMINUM TO SCRAP IRON RIGHT HERE ...
SO SHE CAN CONVERT THEM ALL INTO FINE POWDER WITH HER ABILITY AS WELL!?

AUGH !!

I was careless... So many magic tricks can be made through chemical reactions
By incorpo-rating ideas into knowledge, she expands the horizon of how to use her ability!!



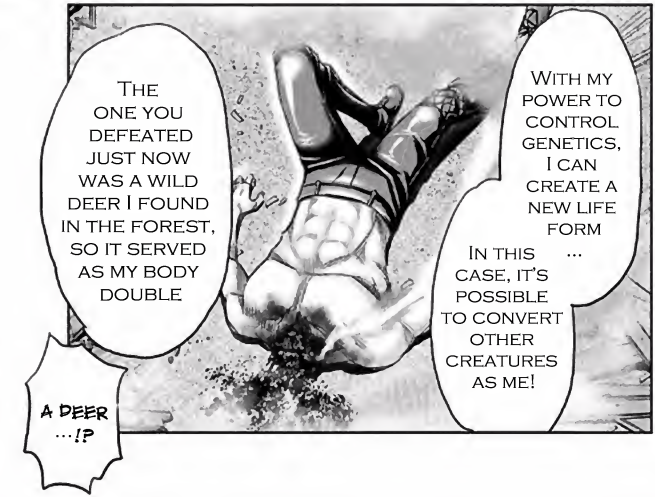
I've got to escape from that attack, and then I'll hide in the forest where there will be no more metal...
Naturally, life forms such as mushrooms can't endure the high temperatures of thermite no matter how far they can evolve...



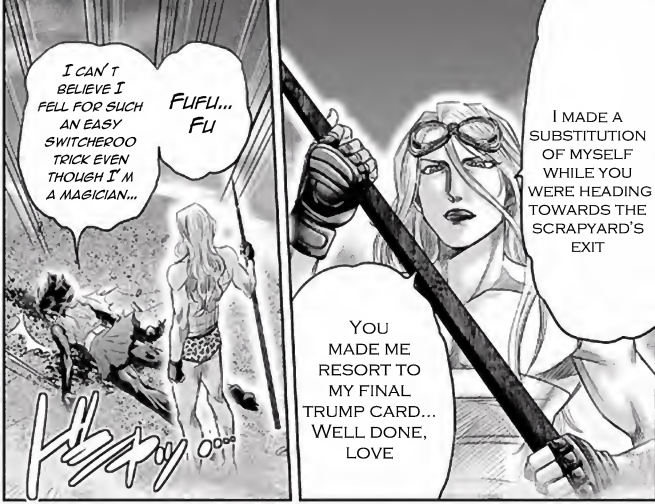
So long, Darwin ...
I knew you would try to escape into the forest... Well that isn't going to happen!!
Oh bugger !!

TS's com: Not Calvin Klein? What a shame xD

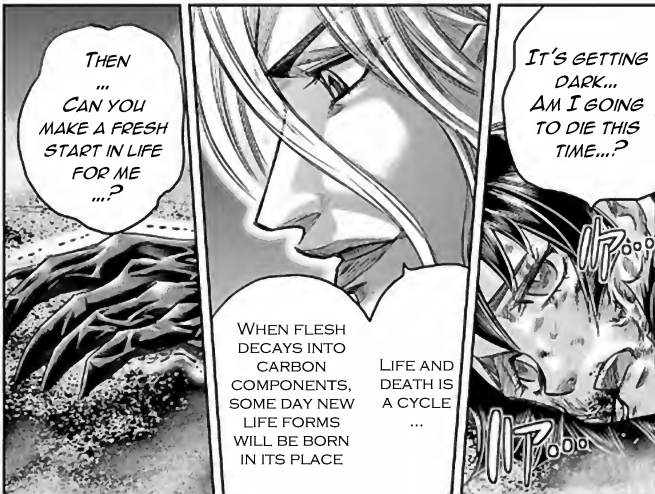
That was a fragment of a metal spear you made...
It's game over, Micchi!!
D ... DARWIN ... THERE'S TWO OF YOU!?
HOW ...?



With my power to control genetics, I can create a new life form ...
In this case, it's possible to convert other creatures as me!
The one you defeated just now was a wild deer I found in the forest, so it served as my body double
A deer ...!?



I made a substitution of myself while you were heading towards the scrapyard's exit
You made me resort to my final trump card... Well done, love
Fufu... Fu
I can't believe I fell for such an easy switcheroo trick even though I'm a magician...
Hmm...



It's getting dark... Am I going to die this time...?
Ha...
Ha...
Life and death is a cycle ...
When flesh decays into carbon components, some day new life forms will be born in its place
Then ... Can you make a fresh start in life for me ...?

If it is you, you can do it, right? Darwin...
My friends are about to show up soon ...
I don't want them to see me like this...
I'm a magician... I want to make a spectacular exit on the stage
I don't want everyone to see ...
Especially Rinji-kun to see me this miserable ...

...Very well then
The existence of the weak must perish... For such a fragile life can be so hideous
But why? You're so strong and beautiful to the bitter end...
Fufu ...
That's magic for you ...

A SCRAPYARD ...
ARE YOU THERE, MICHIRU!?
MICCHI-SAN!!
LOOK!! THERE'S A BLOOD TRAIL HERE ...

HEY... THAT'S MICCHI-SAN'S BERET HAT ...
!?
FAREWELL, RINJI-KUN ...

I BELIEVE IN EVERY ONE OF YOU...
FOR YOU CAN SURELY BRING HAPPINESS TO THIS WORLD ...

DX5536's rant time

and where I dump my fan art for each chapter :3c

Koharu-chan is out atm.So please have a DarwinXMichiru instead

I told ya! She might be less naive but the damage has been done. I'm glad Darwin respects Miharu's wish even though they fought to the death ~~*cough*Isaac is a bastard*cough*~~ .This shows that Carbonoids can have sympathy too, right?

I pretty much ship DarwinXMichiru now... Poor Rinji and RinjiXMichiru shippers.... So sorry....
